Subject: Re: Meeting on PFAS

Hello David,

My apologies for not getting back to you sooner as I have been on travel. While the week of July 1st does not work for our PFAS science folks, I was wondering whether either July 15th or 16th work for you and your team?

Thanks.

Good morning David,

Thanks for getting back. We'd like to do the two meetings separate as we'll be bringing in different people along with us for each. I will find out the availability of our various folks and get back to you over the next few days with dates for each.

Thanks again.

Jim,

I apologize for losing this email and missing the June 20 opportunity.

The draft agendas are fine.

Though it is the July 4th week, I am available that week as are some folks in OW.

Please confirm the days on which you would like to meet and if you would like to discuss one or both of the substances. Once we have that info I will ask Nathan to round up the appropriate folks.

Thanks

DDD

By the way, we can push back the Molybdenum meeting to the week of July 1st.

Good morning David and Nathan,

Just checking back on whether the meeting date and whether the agenda was sufficient?

Thanks.

Subject: Meeting Agendas on PFAS and Molybdenum

We tentatively looked at 6/20 at 2:30pm (ET); however, our technical folks are in town with the following schedule:

Wed: 1-3:30pm;
Thursday: 9-11:30a, 2:30-5p;
Friday: all day

PFAS Agenda:

1. Concerns with science supporting lifetime health advisory value for PFOA and PFOS. Presentation of new science for EPA's consideration.
2. PFBS new studies & high level concerns for EPA consideration.
3. Scientific perspectives on the next five PFAS analytes for EPA toxicity assessments.

Molybdenum Agenda:

1. Scientific for ORD consideration in updating EPA's 1992 IRIS oral RfD for Molybdenum.
2. EPA-ORD coordination with EPA-OW in updating the respective IRIS and drinking water health advisory, respectively.
